

MUHAMMAD TAHA

Web Developer | Front-End Developer

Karachi, Pakistan | +92 326 0166091 | tahacodyou@gmail.com | github.com/tahatahir89 | [Portfolio](#)

PROFESSIONAL SUMMARY

Self-taught Web Developer with hands-on experience building responsive, full-stack web applications through independent projects. Comfortable across the stack — from animated, pixel-precise React front-ends to backend integrations with Node.js, MongoDB, and third-party APIs. Quick learner who builds and ships real projects to stay current with industry practices, and deploys them independently using GitHub and Vercel. Looking for an internship or junior web developer role to contribute to a professional team and continue growing as a developer.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, Vite, Tailwind CSS, Bootstrap, GSAP, Locomotive.js, Responsive Web Design

Backend: Node.js, Express.js, NestJS, REST APIs, JWT Authentication

Database: MongoDB, SQL, PostgreSQL

Tools & Deployment: Git, GitHub, Vercel, Railway, Cloudinary, TypeScript

Development Focus: Responsive Web Development, Full-Stack Integration, API Integration, Authentication, UI Animation, Deployment

PROJECT EXPERIENCE

Maroof Sweets — Bakery E-Commerce Platform [\(Live Project\)](#)

React, Vite, Tailwind CSS, Node.js, Express, MongoDB, JWT, Cloudinary

- Built a full-stack e-commerce site for a bakery business, including product catalog, cart, multi-step checkout, and order tracking.
- Implemented JWT-based customer authentication and an admin dashboard for managing products, orders, and customers.
- Integrated Cloudinary for product image uploads and deployed a fully responsive frontend/backend on Vercel with MongoDB Atlas.

MT Tutors — Tutoring Platform [\(Live Project\)](#)

React, Vite, Tailwind CSS, MongoDB, Cloudinary

- Developed a platform connecting students with tutors, including an admin panel and a student dashboard.
- Implemented user authentication and automated PDF admit-card generation for enrolled students.
- Built responsive enrollment and information pages using a component-based React architecture.

Chat-Saas — Real-Time Chat Application [\(Live Project\)](#)

NestJS, TypeScript, SQL, Cloudinary

- Built a full-stack chat application with real-time messaging, user authentication, and live user-status indicators.
- Implemented image upload and per-user profile/username functionality using Cloudinary, backed by a NestJS/SQL backend.

Fodie.lover — Business Website Rebuild [\(Live Project\)](#)

GSAP, Locomotive.js, Vanilla JavaScript, Responsive Design

- Rebuilt the front-end for a driving range, crazy golf, and café venue into a fully mobile-responsive site.
- Implemented smooth-scroll animations with Locomotive.js and GSAP to improve visual flow and engagement.

PROFESSIONAL EXPERIENCE

Independent Web Developer — Self-Directed Projects & Development

Karachi, Pakistan (Remote)

- Plan, build, and deploy multi-page websites and full-stack web applications independently, handling both front-end UI and backend/database logic.
- Implement authentication (JWT), image upload/storage (Cloudinary), and database design (MongoDB, SQL) across multiple project builds, then deploy and maintain them using Git, GitHub, Vercel, and Railway.
- Continuously learn new frameworks and tools (React, NestJS, TypeScript, GSAP) to stay current with modern web development practices.

EDUCATION

Intermediate (Pre-Engineering / Science)

Govt. Science College Malir — Board of Intermediate Education, Karachi

Matriculation

DUAA Children Academy — Board of Secondary Education, Karachi

HOBBIES & INTERESTS

Building personal web projects and experimenting with new frameworks · UI/UX and scroll-based animation experimentation · Exploring AI tools for development workflows · Graphic design & video editing
